## LANGUAGE

<http://web.arts.ubc.ca/italian/>  
Excellent site for learners and teachers. The grammar section is comprehensive - essential reading for beginners, school students and all users. The background picture may obscure some of the links to the different sections - click before it loads! The exercise section (the link on the bottom left of the page) is superb - students can answer exercises online and have their work corrected immediately. The exercises are designed to test particular grammatical features. A key is provided so that you can compare your work to the correct version. Note that it's not necessary to do the work online - you can print out a sheet with the blanks, and also print out a sheet with the correct answers as handout material.

Online versions of Italian literature (poetry, drama, novels, childrens' literature etc.). It provides a wide range of reading material for all tastes.

<http://www.bbc.co.uk/education/languages/italian/index.shtml>

One of the very best sites on the web for language resources, with material that can be used for all ages. Excellent colourful exercises and activities, with good glossaries and support material that can be printed out for use in classes. You'll need additional programs (Shockwave and Real Audio) - they can be downloaded on the spot.

<http://eleaston.com/italian.htm>

A collection of activities, exercises and information relating to the teaching of Italian.

## ITALIAN PRESS

<http://www.cib.unibo.it/edicola>

<http://www.repubblica.it/>

La Repubblica is one of Italy's leading daily newspapers. Visually appealing, front page loaded with links and very attractive graphics. Good photos which can be very helpful as accompaniment to the articles downloaded. It has good links to other media (regional newspapers, radio etc.) and also frequently conducts online discussions on contemporary issues.

<http://www.lastampa.it>

Another of Italy's national newspapers. The front page gives you immediate links to the day's news. Each story is about a paragraph long, and this material is ideal for contemporary language information. There are also good links to sports news, entertainment and cinema listings (good material for conversation classes - what's showing in Italy this week, have you seen it etc.)

## TOURISM AND CULTURE

<http://www.city.net/countries/italy/>

Travel Italy provides a wonderful introduction to everything about Italy - ranging from the cultural to everyday living in Italy. It contains excellent material for classroom use in all sectors and is so very enjoyable!

## GENERAL

<http://homepage.eircom.net/~italianembassy/>

This is the official site of the Italian embassy in Ireland. An excellent site for anybody who's in any way interested in Italy and things Italian. Lots of political, administrative and cultural information and links. Well-laid out.
